ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: BHK-63/119
Art. Nr.: 40543

9120061394069

Short description
Electric bathroom heater, white, 800W, 230V

Product Description
The BHK bathroom radiator is used to heat bathrooms and towels. The radiator has an attractive design with no visible weld seams, is frost-proof down to -20 °C and is filled with heat transfer fluid. The thermostat regulates the surface of the radiator in 2 stages (45 °C and 60 °C). The device has an on/off switch with LED display and a 2-hour timer function. The BHK-TH radio control is optionally available for weekly and daily programs as well as temperature drop detection - making it compliant with ecodesign guidelines. Device depth: 85 mm, protection class: IP X5 protection class I, color: traffic white RAL 9016, plug connection cable: 1.5 m right, CE compliant.

ETIM 10 Characteristics

Radiator design	Straight	**Number of tubes**	22
Type of collector	Other	**Max. input power electric heating**	800 Watt
With console	✖	**Max. input power fans**	0 Watt
Swivelling	✖	**Supply voltage**	230|230 Volt
Shape of radiation tube	Rectangular	**Frequency supply voltage**	50|50 Hertz
Material	Steel	**Connection cable length**	1.5 Metre
With fan	✖	**Width**	630 Millimetre
Electrical connection	Connection cable with plug	**Height**	1190 Millimetre
Position control panel	Other	**Depth**	85 Millimetre
Suitable for wireless remote control	✔	**Weight**	14 Kilogram
With remote control	✖		
Power control	Electronic		
With time switch clock	✖		
Colour	White		
Degree of gloss	Glossy		
Degree of protection (IP)	Other		
Protection class according to IEC 61140	I		
Digital indication	✖		
Suitable for bus connection	✖		
Programmable	✖		
Adaptive (self-learning)	✖		
Consumption indication	✖		
Operation by app	✖		
With mounting material	✔		
Type approval according to BBR/EKS	✖
