Mini hand-held RF transmitter with 1 channel and 1 control button

05-311

4 year warranty

This hand-held transmitter has one control button and can be used in combination with every Niko receiver. One function can be assigned to the control button. Visual check of the control via a LED. For use in a residential environment. Battery supplied.

In combination with the Niko Home Control USB RF interface (410-00099), the hand-held transmitter can also be used in Niko Home Control installations.
