ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

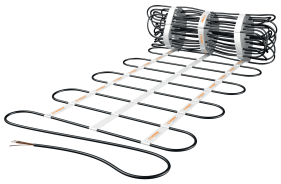
PRODUCT DATASHEET

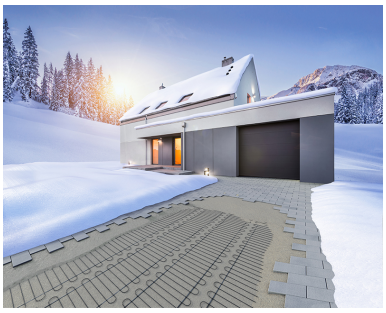
Type: 303-BRUS-75-280
Art. Nr.: 40699

9120061398470

Short description

Heating mat, concrete/rolled asphalt, 2.11m2, 0.75x2.8m, 632W, 400V





Product Description

The BRS heating mat is used to keep parking garage entrance ramps, emergency access roads and entrance areas free of snow and ice. The heating mat is ideal for laying in concrete screed, flowing concrete, monolithic concrete, in-situ concrete and even in 3 cm protective concrete as well as for installation in rolled asphalt. Thanks to their robust, impact-resistant design, BRS heating mats can be used in areas subject to increased mechanical stress. The heating conductor is resistant to spherical acids and alkalis. The special processing and only one connection cable simplify the installation of the heating mats. TIP: We are happy to produce your connection cable to measure. Nominal temperature: up to 105 °C, system design: in accordance with EN60335, CE-compliant, protection class: IP X7, outer diameter: 7 mm, connection cable: 10 m, 3x1.5 (2.5) mm2, min. bending radius: 5 d, min. installation temperature: -5 °C, temperature resistance of the heating conductor: 180 °C/45 min, protective measure: RCD 30 mA.

ETIM 10 Characteristics

Model	Other	**Connection voltage**	400|400	Volt
With support mat	✖	**Connected load**	632|632	Watt
Fixation thermal conductor	Glued	**Power**	300	Watt per square metre
Self-adhesive	✖	**Heating conductor load**	30	Watt per metre
Suitable for damp space	✔	**Resistance**	253	Ohm
Suitable as outdoor surface heating	✔	**Number of cold conductors**	1	
Suitable as roof surface heating	✖	**Length of cold conductors**	10000	Millimetre
With controller	✖	**Surface**	2.11	Square metre
With room temperature controller	✖	**Length**	2800	Millimetre
With floor temperature sensor	✖	**Width**	750	Millimetre
		Thickness	7	Millimetre
