## Before first use

Before getting started with this product, it is advisable to check the order completeness and any damage. If this is the case, please contact Tronix Lighting.
## Description

This 24V ground spotlight features a high-quality aluminum cover ring, which protects the CREE LEDs present. Ideal for installation in the front and backyard, in front of a facade or around the driveway.

**Features**

- IK08 and IP67 rated;
- 24V connection, excluding power supply;
- Extra long power cord (3m) for easy connection.
## Installation

1. Turn off the power, remove the product and accompanying parts from the packaging. Then cut a hole to size to insert the ground spotlight later;
2. Check the wiring and then put it through the outer sleeve of the ground spotlight;
3. Connect the cables and place the spotlight itself in the sleeve and secure it where necessary;
4. Check the complete installation after the ground spotlight is installed. Should it be in order, the mains power can be reactivated.

## Safety

Safety is a top priority at Tronix Lighting. Therefore, we heartily recommend that you follow the following steps closely:

*   Keep this manual carefully for future reference;
*   Choose a qualified electrician while installing, maintaining or inspecting this product;
*   Never look directly into a light source to avoid possible damage to the eye;
*   Always ensure that the relevant power group is on non-active when the product is connected;
*   Use only recommended combinations (LED drivers, controllers or dimmers) to avoid injury or damage to the product.

## Technical problems and repair

Should a product not work properly after installation, or if the product exhibits problems over time, it is advisable to check the following elements:

*   Check the wiring and installation of your product;
*   Check for the presence of interfering elements such as dust, water or other electronics;
*   If possible, try disconnecting the product and testing it in another location to rule out a problem at the location;
*   Should you be dealing with a WIFI-based product, check and reset your router's settings.

Should the product still not work after testing, it is recommended to send it in for inspection and/or repair. To do so, please contact Tronix Lighting using nearby details and proof of purchase (packing slip).
