

# Product data sheet Spirotech

## Product name

**Secondary vessel 200L for EMCK**

## Product properties

Additional vessels for EMCK expansion system, only overflow line, without level measurement

## Article number

**EMCB-Z200**

|                              |                                                        |
|------------------------------|--------------------------------------------------------|
| Height                       | 1478 mm                                                |
| Volume                       | 200 l                                                  |
| Colour                       | Other                                                  |
| Diameter                     | 500 mm                                                 |
| Max. operating pressure      | 0.5 bar                                                |
| With pressure gauge          | No                                                     |
| With exchangeable membrane   | Yes                                                    |
| Horizontal positioning       | No                                                     |
| Suitable for central heating | Yes                                                    |
| Vertical positioning         | Yes                                                    |
| With legs                    | Yes                                                    |
| Material membrane/bladder    | Ethylene-propylene di-<br>ene monomer rubber<br>(EPDM) |

|                                      |         |
|--------------------------------------|---------|
| Flange compression class             | Other   |
| With drain                           | Yes     |
| Tilting height                       | 1600 mm |
| With safety valve                    | Yes     |
| Max. glycol mixture                  | 60 %    |
| Suitable for tap water               | No      |
| Max. ethanol mixture                 | 60 %    |
| Suitable for solar collector circuit | Yes     |
| Pre-pressure                         | 0 bar   |
| With fixed wall support              | No      |
| Suitable for cooling                 | No      |
