Solutions™

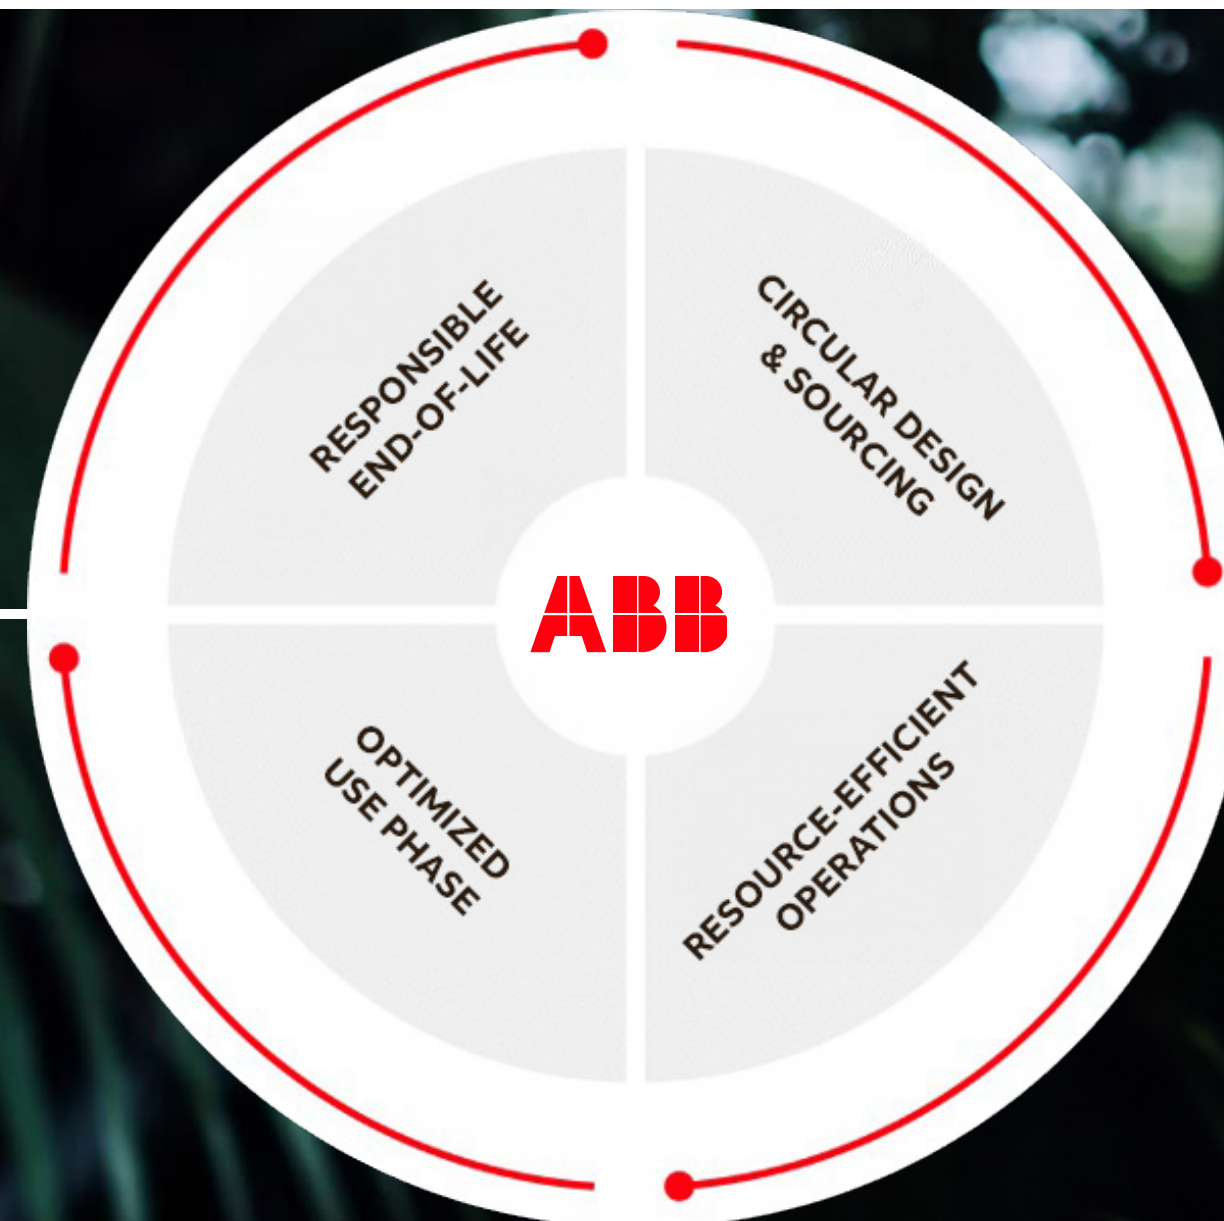

End-of-life instructions

Closing the loop with instructions to maximize the recyclability embedded in circular design.

Energy efficient use phase

Energy efficient product due to lower average energy consumption during use phase compared to equivalent products available in the market.

Designed for recyclability at end of life

Recyclability rate between 86% and 94% according to EN 45555.

Sustainable use of materials

Reduced packaging waste by using less packaging, renewable materials, and avoiding plastics.

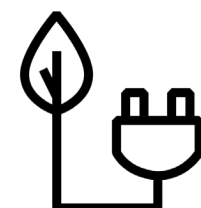

Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations. (Validated by UL2799 for ESB25/40/63/100).

Third-party verified Environmental Product Declaration

EPDs compliant with ISO 14025 Type III (externally verified) ensure data accuracy and full transparency on the product's environmental impacts throughout its life cycle.

Low carbon manufacturing

This product is manufactured in ABB facilities powered by renewable energy.
