

CLICKFIT EVO ROOF HOOK PRO

The new Roof hook Pro has been specially designed for extra strength. By screwing it securely on the rafter and leaving space between the tile and hook, it can withstand higher snow and wind loads.

- Securely attached to rafters with screws
- Horizontally adjustable
- 3 height adjustable (36, 44 en 52 mm)
- 5 mm space between tile and hook
- Snow and wind load resistant
- Self-aligning click connection
- Magnelis coating for additional corrosion protection
- Maximum tile overlap 90 mm
