

ABB EcoSolutions™ – SHD200 switch disconnecter

Safe switching

The SHD200 series has a two-terminal cylindrical hub terminal that enables two conductors to be connected up or a conductor and busbar cross-wiring combination.

End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

Enhanced durability

Tested for double the standard amount of electrical and mechanical endurance (20,000 cycles mechanically vs. 10,000 described in the product standard).

Designed for high recyclability & lower material use

Up to **83,9% recyclability rate**, calculated according to EN 45555.

Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations.

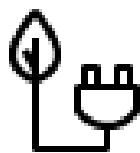

Sustainable packaging materials

Packaging is made of **100% recycled cardboard**.

Third-party verified Environmental Product Declaration

EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle ([LINK](#) to the EPD).

Low-carbon manufacturing

This product is manufactured in an ABB facility that is powered by renewable energy.
