# 5.7 Exit signs - Indoor
## Exit cube

CE | EN 60598-2-22 | EN 62034 | 20 m | >◻< | LED | ⏚
IP40 | IK07 | Li-Ion | AT | CG+Line
- Modular design of the polycarbonate cube for simple and safe mounting by just sliding cube onto installed luminaire
- Easy and flexible mounting options with space to land cables- Ceiling,wall, cable and chain
- Robust design with impact-resistance of IK07

**Light Source:**

4x 1W  LED

**Materials:**

Cube: Polycarbonate;
Enclosure: Stainless steel

Housing White RAL9010

Lithium ion battery

**Installation:**

Easy and flexible mounting options (ceiling, wall, cable and chain)

**Operation :**

Universal use for maintained and non-maintained operation and for 1 h, 3 h or 8 h operation

**Applications:**

Large wide areas, warehouses, retail areas

The Exit Cube has three-sided illumination, making it suitable for large and wide areas, for example warehouses or retail areas. Optimal perceptibility of the luminaire is achieved by the high luminance of the white contrasting colour (>500 cd/m²).

Several mounting options are available (ceiling, wall, cable or chain suspension) for use in various applications. One, three or eight hours rated operating duration can be freely specified according to application.
The use of LEDs, automatic testing and monitoring devices (CGLine+) significantly reduce the operating and maintenance costs of the installation.

### Viewing distance

Maximum viewing distance: **20m**.

Viewing distance of 20 meters provides the ability to use fewer products and less power consumption per coverage area of an application.
