

Technical data sheet

MP² BUS[®]

Communicative damper actuator for adjusting dampers in technical building installations

- Air damper size up to approx. 8 m²
- Torque motor 40 Nm
- Nominal voltage AC/DC 24 V
- Control modulating, communicative 2...10 V variable
- Position feedback 2...10 V variable
- Communication via Belimo MP-Bus
- Conversion of sensor signals
- with connecting terminals

Technical data

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V
	Power consumption in operation	4.5 W
	Power consumption in rest position	1.6 W
	Power consumption for wire sizing	7 VA
	Connection supply / control	Terminals 4 mm ² (cable ø410 mm, 4-wire)
Data bus communication	Communicative control	MP-Bus
	Number of nodes	MP-Bus max. 8
Functional data	Torque motor	40 Nm
	Torque variable	25%, 50%, 75% reduced
	Operating range Y	210 V
	Input impedance	100 kΩ
	Operating range Y variable	Start point 0.530 V
		End point 2.532 V
	Operating modes optional	Open/close
		3-point (AC only)
		Modulating (DC 032 V)
	Position feedback U	210 V
	Position feedback U note	Max. 0.5 mA
	Position feedback U variable	Start point 0.58 V End point 2.510 V
	Position accuracy	±5%
	Direction of motion motor	selectable with switch 0/1
	Direction of motion note	Y = 0 V: At switch position 0 (ccw rotation) /
	Direction of motion note	1 (cw rotation)
	Direction of motion variable	electronically reversible
	Manual override	with push-button, can be locked
	Angle of rotation	Max. 95°
	Angle of rotation note	can be limited on both sides with adjustable
	-	mechanical end stops
	Running time motor	150 s / 90°
	Running time motor variable	75290 s
	Adaptation setting range	manual

Functional data	Adaptation setting range variable	No action Adaptation when switched on Adaptation after pushing the manual override button
	Override control	MAX (maximum position) = 100% MIN (minimum position) = 0% ZS (intermediate position, AC only) = 50%
	Override control variable	MAX = (MIN + 32%)100% MIN = 0%(MAX - 32%) ZS = MINMAX
	Sound power level, motor	45 dB(A)
	Mechanical interface	Universal shaft clamp reversible 1226.7 mm
	Position indication	Mechanical, pluggable
Safety data	Protection class IEC/EN	III, Safety Extra-Low Voltage (SELV)
	Power source UL	Class 2 Supply
	Degree of protection IEC/EN	IP54
	Degree of protection NEMA/UL	NEMA 2
	Enclosure	UL Enclosure Type 2
	EMC	CE according to 2014/30/EU
	Certification IEC/EN	IEC/EN 60730-1 and IEC/EN 60730-2-14
	UL Approval	cULus according to UL60730-1A, UL60730-2-14 and CAN/CSA E60730-1
		The UL marking on the actuator depends on the production site, the device is UL-compliant in any case
	Hygiene test	According to VDI 6022 Part 1 / SWKI VA 104-01, cleanable and disinfectable, low emission
	Type of action	Туре 1
	Rated impulse voltage supply / control	0.8 kV
	Pollution degree	3
	Ambient humidity	Max. 95% RH, non-condensing
	Ambient temperature	-3050°C [-22122°F]
	Storage temperature	-4080°C [-40176°F]
	Servicing	maintenance-free
Weight	Weight	1.6 kg

Technical data sheet

Safety notes

•	This device has been designed for use in stationary heating, ventilation and air-conditioning
	systems and must not be used outside the specified field of application, especially in aircraft
	or in any other airborne means of transport.

- Outdoor application: only possible in case that no (sea) water, snow, ice, insolation or aggressive gases interfere directly with the device and that it is ensured that the ambient conditions remain within the thresholds according to the data sheet at any time.
- Only authorised specialists may carry out installation. All applicable legal or institutional installation regulations must be complied with during installation.
- The device may only be opened at the manufacturer's site. It does not contain any parts that can be replaced or repaired by the user.
- To calculate the torque required, the specifications supplied by the damper manufacturers concerning the cross-section and the design, as well as the installation situation and the ventilation conditions must be observed.
- The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed.

Product features

Operating mode	Conventional operation:	
	The actuator is connected with a standard control signal of 010 V and drives to the position defined by the control signal. The measuring voltage U serves for the electrical display of the actuator position 0.5100% and as control signal for other actuators.	
	Operation on Bus:	
	The actuator receives its digital control signal from the higher level controller via the MP-Bus and drives to the position defined. Connection U serves as communication interface and does not supply an analogue measuring voltage.	
Converter for sensors	Connection option for a sensor (passive or active sensor or switching contact). The MP actuator serves as an analogue/digital converter for the transmission of the sensor signal via MP-Bus to the higher level system.	
Parametrisable actuators	The factory settings cover the most common applications. Single parameters can be modified with the Belimo service tools MFT-P or ZTH EU.	
Simple direct mounting	Simple direct mounting on the damper shaft with a universal shaft clamp, supplied with an an anti-rotation device to prevent the actuator from rotating.	
Manual override	Manual override with push-button possible (the gear train is disengaged for as long as the button is pressed or remains locked).	
Adjustable angle of rotation	Adjustable angle of rotation with mechanical end stops.	
High functional reliability	The actuator is overload protected, requires no limit switches and automatically stops when the end stop is reached.	
Home position	The first time the supply voltage is switched on, i.e. at the time of commissioning, the actuator carries out a synchronisation. The synchronisation is in the home position (0%).	
	The actuator then moves into the position defined by the control signal.	
	0, Y = 0 V ccw.	

Product features				
Adaptation and synchronisation	An adaptation can be triggered manually by pressing the "Adaptation" button or with the PC- Tool. Both mechanical end stops are detected during the adaptation (entire setting range).			
	Automatic synchronisation after pressing the manual override button is configured. The synchronisation is in the home position (0%).			
	The actuator then moves into the position defined by the control signal.			
	A range of settings can be adapted using the PC-Tool (see MFT-P documentation)			

Accessories

Gateways	Description	Туре
	Gateway MP to BACnet MS/TP	UK24BAC
	Gateway MP to Modbus RTU	UK24MOD
Electrical accessories	Description	Туре
	Auxiliary switch 1x SPDT add-on	S1A
	Auxiliary switch 2x SPDT add-on	S2A
	Feedback potentiometer 140 Ω add-on	P140A
	Feedback potentiometer 1 k Ω add-on	P1000A
	Feedback potentiometer 10 kΩ add-on	P10000A
	Signal converter voltage/current 100 kΩ 420 mA, Supply AC/DC 24 V	Z-UIC
	Positioner for wall mounting	SGA24
	Positioner for built-in mounting	SGE24
	Positioner for front-panel mounting	SGF24
	Positioner for wall mounting	CRP24-B1
	MP-Bus power supply for MP actuators	ZN230-24MP
Mechanical accessories	Description	Туре
	Actuator arm for standard shaft clamp	AH-GMA
	Ball joint suitable for damper crank arm KH8 / KH10	KG10A
	Damper crank arm Slot width 8.2 mm, clamping range ø1425 mm	KH10
	Anti-rotation mechanism 230 mm, Multipack 20 pcs.	Z-ARS230
	Mounting kit for linkage operation for flat installation	ZG-GMA
	Baseplate extension for GMA to GM	Z-GMA
	Position indicator, Multipack 20 pcs.	Z-PI
	Terminal protection IP54, Multipack 20 pcs.	Z-TP
Tools	Description	Туре
	Service tool, with ZIP-USB function, for parametrisable and communicative Belimo actuators, VAV controller and HVAC performance devices	ZTH EU
	Belimo PC-Tool, Software for adjustments and diagnostics	MFT-P
	Adapter for Service-Tool ZTH	MFT-C
	Connecting cable 5 m, A: RJ11 6/4 ZTH EU, B: 6-pin for connection to service socket	ZK1-GEN
	Connecting cable 5 m, A: RJ11 6/4 ZTH EU, B: free wire end for connection to MP/PP terminal	ZK2-GEN

Electrical installation

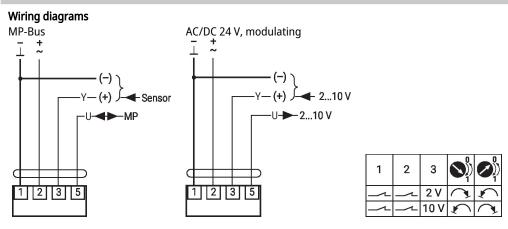

Supply from isolating transformer.

Parallel connection of other actuators possible. Observe the performance data.

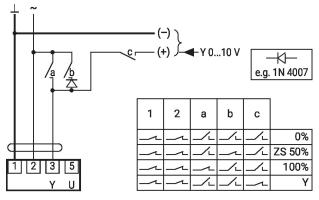

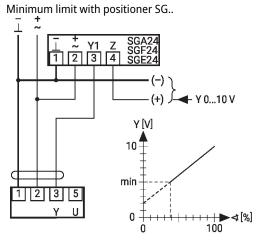

Electrical installation

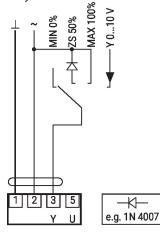

Functions

Functions with basic values (conventional mode) Override control with AC 24 V with relay contacts

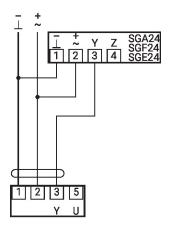

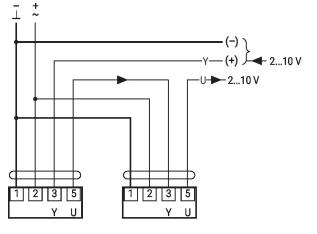

Override control with AC 24 V with Control remotely 0...100% with rotary switch

positioner SG..

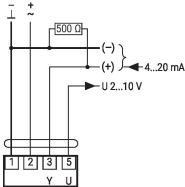

Primary/secondary operation (position-dependent)

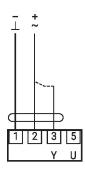

Functions with basic values (conventional mode)

Control with 4...20 mA via external resistor

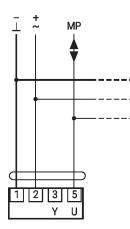

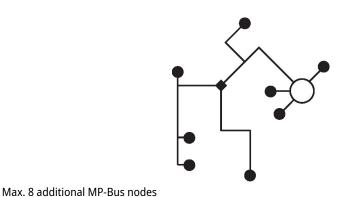

Functional check

Procedure

Functions with specific parameters (Parametrisation necessary)

MP-Bus Network topology

There are no restrictions for the network topology (star, ring, tree or mixed forms are permitted). Supply and communication in one and the same 3-wire cable • no shielding or twisting necessary • no terminating resistors required

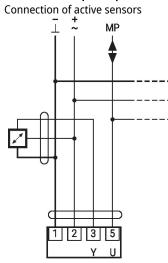

The operating range must be set to DC 2...10 V.

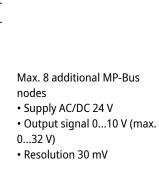

Caution:

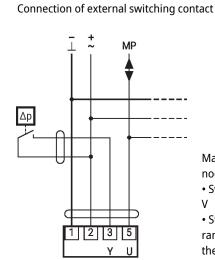

to DC 2...10 V. The 500 Ohm resistor converts the 4...20 mA current signal to a voltage signal DC 2...10 V.

Functions with specific parameters (Parametrisation necessary)

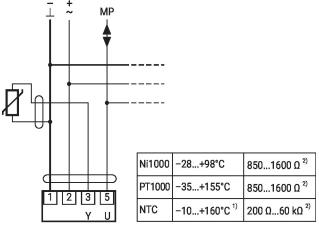

Max. 8 additional MP-Bus nodes

• Switching current 16 mA @ 24 V

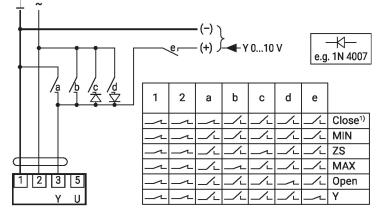

• Start point of the operating range must be parametrised on the MP actuator as ≥0.5 V

Connection of passive sensors

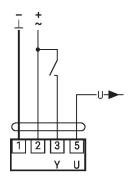

1) Depending on the type 2) Resolution 1 Ohm Compensation of the measured value is recommended

Override control and limiting with AC 24 V with relay contacts

Control open/close

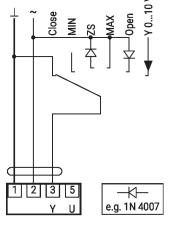

Functions

Functions with specific parameters (Parametrisation necessary)

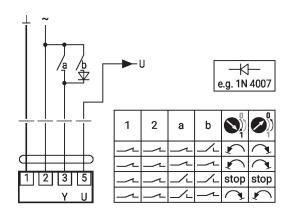

Override control and limiting with AC 24 V with rotary switch

Caution:

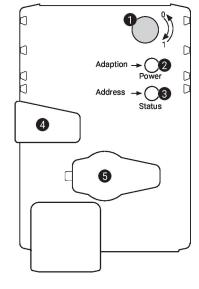

The "Close" function is only guaranteed if the start point of the operating range is defined as min. 0.5 V.

1

Control 3-point with AC 24 V

Operating controls and indicators

Direction of rotation switch

Switch	ovor	

Switch over:

Push-button and LED display green

Off:	No power supply or malfunction
On:	In operation
Press button:	Triggers angle of rotation adaptation, followed by standard mode

Direction of rotation changes

B Push-button and LED display yellow

Off:	Standard mode
On:	Adaptation or synchronisation process active
Flickering:	MP-Bus communication active
Flashing:	Request for addressing from MP client
Press button:	Confirmation of the addressing

Manual override button 4

Press button:	Gear train disengages, motor stops, manual override possible
Release button:	Gear train engages, synchronisation starts, followed by standard mode

Service plug 5

For connecting parametrisation and service tools

Check power supply connection

Possible wiring error in power supply

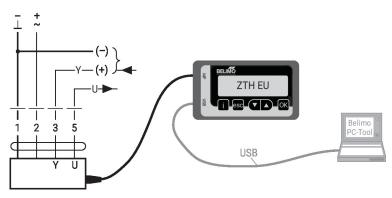

Service

Tool connection

tion The actuator can be parametrised by ZTH EU via the service socket. For an extended parametrisation the PC tool can be connected.

Connection ZTH EU / PC-Tool

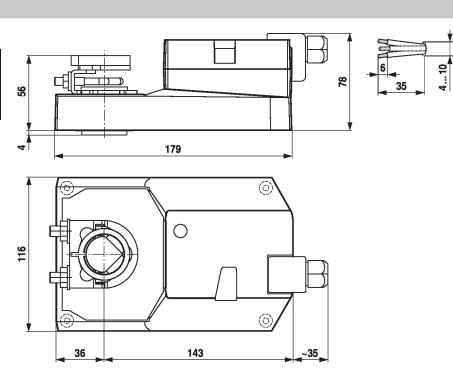

Dimensions
