Control Light Bulb
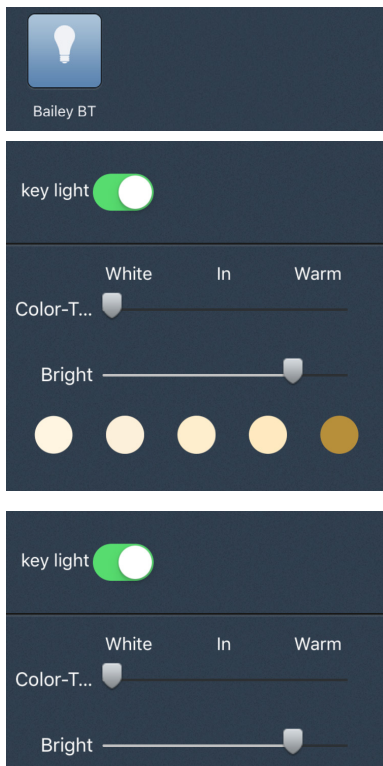

|	
[lamp icon] Bailey BT	Tap on connected lamp in the light list
key light [on] White In Warm Color-T... Bright ⚪⚪⚪⚪🟤	Dafault settings
key light [on] White In Warm Color-T... Bright	Turn On/Off Change colour Temperature (6500 - 2700K) Adjust brightness

When using standard light switch the Bluetooth Light Bulb will light up in standard default setting (6500K - 80%)

When you switch off the Bluetooth setting on your mobile device while the lamp is on it will stay on. You can turn off the lamp by using the standard lamp switch.
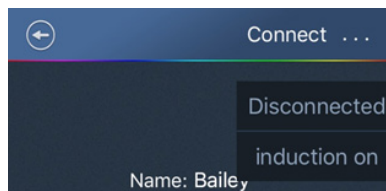

Renaming bulb: tap (and hold) on the Ble_Light name in connect status, the corresponding bulb will start flashing, then you can change the name of the light bulb

Delete bulb: tap (and hold) the bulb you want to delete in the Light List until a red cross will appear. Press cross to delete bulb.
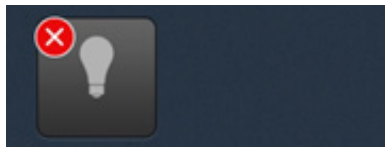

Induction function:
tap on "..." and select "Induction On". The lamp will automatically turn off when the Bluetooth connection is broken because of the distance between your mobile device and the lamp. The lamp will automatically turn off when back within distance.
