

## BDR33M: Mounting/repair tape for insulation red 33m x 50mm

### Commercial information

Henco's vast product range always offers a solution.

Assembly/repair tape for insulated pipes:

- Available in red and blue
- Suitable for repairing and assembling pipe insulation
- Length: 33 m
- Width: 50 mm
- Thickness: 150 µm
- Material: PVC
- Tensile strength: 33 N/cm

#### Basic unit dimensions

|            |          |
|------------|----------|
| Height     | 50 mm    |
| Length     | 115 mm   |
| Width      | 50 mm    |
| Net weight | 0.350 kg |

#### Certificates

#### Applications

Potable water, Heating, Sanitary

#### Solutions

Building installations, Industry, Utility

## Technical characteristics

|                                     |                          |           |                 |
|-------------------------------------|--------------------------|-----------|-----------------|
| Material                            | Polyvinyl chloride (PVC) | Width     | 50 Millimetre   |
| Colour                              | Red                      | Length    | 33 Metre        |
| Transparent                         | ✗                        | Thickness | 0.15 Millimetre |
| Fluorescent                         | ✗                        |           |                 |
| Photoluminescent (glow in the dark) | ✗                        |           |                 |
| Double-sided                        | ✗                        |           |                 |
| UV resistant                        | ✗                        |           |                 |
| Insulating                          | ✗                        |           |                 |
| Self-extinguishing                  | ✗                        |           |                 |
| Self sticking/amalgamating          | ✗                        |           |                 |
| Suitable for high voltage           | ✗                        |           |                 |
| Vulcanizing                         | ✗                        |           |                 |
| Watertight                          | ✗                        |           |                 |
| Tearable by hand                    | ✓                        |           |                 |
| Magnetic                            | ✗                        |           |                 |
