Installation Notes

Installation

Assembling modular terminal blocks into terminal strips.

Mounting an end plate.

Conductor termination

CAGE CLAMP® connection

Inserting a conductor.

With ferruled conductors, it is necessary to use a terminal block one size larger than the conductor's nominal cross-section.

Commoning

Commoning with comb-style jumper bar.

Testing via test plug modules snapped onto a terminal strip – wired or unwired. As touch contact is made with the CAGE CLAMP® (spring steel) unit, this testing type is limited to maximum 0.5 A.

Distance between locking devices must be approximately 35 ... 40 mm!

Testing after the conductors have been terminated.

Marking

Marking with self-adhesive marking strips.

Marking by direct printing (upon request).
