ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: SN-500-eco
Art. Nr.: 40513

9120061393468

Short description
Wall radiator with thermostat, white, 34x44cm, 500W, 230V

Product Description
The Serena eco convector is an electric direct heater for rapid heating of living spaces such as cellars, toilets, bedrooms, bathrooms and hobby rooms. The design is also suitable for bathrooms, as the devices are all splash-proof. The specially shaped air outlet grille distributes the heated air evenly, creating natural room convection. The electronic thermostat ensures precise room temperature measurement and the setting of 4 operating modes: comfort, setback, frost protection and off. The thermostat can be adapted to individual requirements using a weekly program. The temperature drop detection also optimizes the use of the heater, which therefore complies with the LOT 20 Ecodesign Directive. Voltage: 230 V, output: 500-2000 W, connection cable: 0.9 m, 2-pole control cable, control range: 7-27 °C, protection rating: IP 24, protection class: II, color: traffic white RAL9016, CE compliant.

ETIM 10 Characteristics

Model	Other	**Heating capacity**	500 Watt
Mounting method	On wall	**Supply voltage**	230|230 Volt
Material front	Steel	**Frequency supply voltage**	50|50 Hertz
Grid model	Fins	**Connection cable length**	1 Metre
Material heating element	Steel	**Number of switch positions**	4
Air exhaust	Front side	**Temperature adjustment**	7|27 Degrees celsius
With fan	✖	**Differential gap, temperature**	0.1 Degrees celsius
Electrical connection	Other	**Width**	340 Millimetre
Position control panel	Top side	**Height**	440 Millimetre
Suitable for wireless remote control	✖	**Depth**	105 Millimetre
With remote control	✖	**Weight**	3.7 Kilogram
Power control	Electronic		
Colour	White		
Degree of protection (IP)	IP24		
Protection class according to IEC 61140	II		
With overheating protection	✔		
Programmable	✔		
Frost protection circuit	✔		
Digital indication	✔		
With presence detector	✖		
Suitable for bus connection	✖		
With time switch clock	✔		
Adaptive (self-learning)	✔		
Consumption indication	✖		
Open window detection	✔		
Compatible with Apple HomeKit	✖
