

## PRODUCT DATASHEET

**Type:** ET-IRSP-RC-350-W  
**Art. Nr.:** 60068

9120105419017

### Short description

Infrared stand panel, white, 60x60cm, 350W, incl. remote control

### Product Description

ETHERMA infrared stand panel with remote control is a mobile infrared heater, which can be used in almost any premises, such as living rooms, offices, bathrooms or containers, either as an additional heat source or as a stand-alone heating system. Due to the extremely light construction, the panel can be easily placed in different locations. The infrared heating is ready for use at any time and can be easily controlled by the integrated remote control. In addition to the room temperature measurement and temperature drop detection, a weekly program can be programmed. Due to the homogeneous surface temperature, a uniform heat emission takes place at the placed location - without time-consuming installation work. The infrared panel itself is only 22mm thin and fits into any room due to its simple white design. Power: 350W or 580W; smooth surface, protection class: IP 54, Including connection box on the back of the device with on/off switch; surface temperature: max. 95 °C, plug cable: 1 m

### ETIM 10 Characteristics

<b>Type of IR radiation</b>	IR-C	<b>Power consumption</b>	350 Watt
<b>Mounting method</b>	Freestanding	<b>Supply voltage</b>	230 230 Volt
<b>Mounting direction</b>	Horizontal	<b>Frequency supply voltage</b>	50 50 Hertz
<b>Suitable for ceiling mounting</b>	✘	<b>Max. surface temperature</b>	95 Degrees celsius
<b>Degree of protection (IP)</b>	IP54	<b>Height</b>	600 Millimetre
<b>Colour</b>	White	<b>Width</b>	600 Millimetre
<b>With imprint</b>	✘	<b>Depth</b>	22 Millimetre
<b>With room temperature controller</b>	✓	<b>RAL-number</b>	9016
<b>With mounting material</b>	✓		
<b>Material frame</b>	Aluminium		
<b>Surface treatment</b>	Lacquered		
<b>Surface structure front panel</b>	Smooth		
<b>With lighting cove</b>	✘		
<b>Dimmable</b>	✘		
<b>Light outlet</b>	Direct
