

For the use in every industrial environment

Eaton's wide range of Motor Control Gear and Heating and Lighting Control equipment is an integral part of our single source commitment. Since the late 1920's we have built countless motor starters, fitted and trusted by generations of contractors, while the increasing requirements of our markets have led us to constantly update and expand our MS-16A range to allow for an increased choice of current ratings and ingress protection.

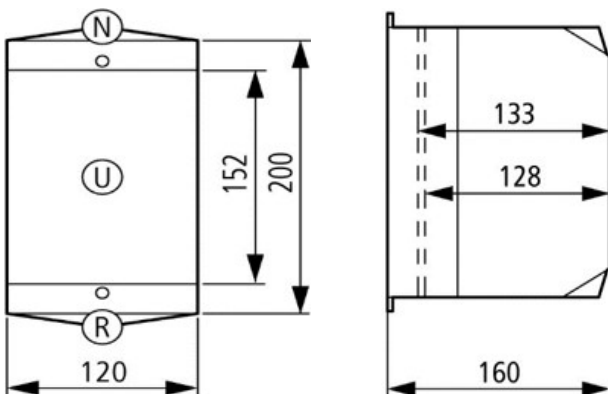

This wealth of experience and expertise in the design and manufacture of Motor Control Gear is mirrored by our Heating and Lighting range which offers a versatile and comprehensive choice.
