

Double adaptor 4 for data outlet(s)

170-65404

Adaptor 4 is intended for a Niko data outlet and for an oblique model

Technical data

Double adaptor 4 for data outlet(s)

The adaptor is at the front and back provided with an indelible engraving of the number 4.4. Suitable for integrating 2 Niko outlets. The outlets are clicked into adaptor at the back. The adaptor is made of dark grey pc+asa and complies with a filament test of 650°C and is halogenfree. On each of its four corners, the connection piece is equipped with studs that ensure that the central plate is perfectly positioned in relation to the connection piece. Moreover, the connection piece is equipped with snap hooks on the right and left sides that hold the central plate in place. The adaptor can be clicked onto a 45x45 mm flush-mounting frame and can be finished with an oblique central plate for 2 outlets (with transparent text field). Dimensions adaptor 4.4: 45x45mm

- Protection degree: IP41 for the combination of a mechanism, central plate and faceplate
- Impact resistance: the combination of a mechanism, a central plate and a faceplate has an impact-resistance of IK06
- Dimensions (HxWxD): 45 mm x 45 mm x 18.5 mm
- Marking: CE
