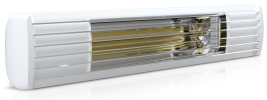
Short description
Infrared Heater 2500W, Carbon Lamp, White



Product Description
The ETHERMA EXO PRO is a premium infrared heater for patios, balconies, hospitality areas and other outdoor spaces. Its short-wave infrared radiation delivers a pleasant sensation of heat almost immediately, without first heating the surrounding air. The premium carbon lamp combines strong heat output with low residual light and a long service life. An optimized reflector directs the heat forward, while the robust aluminium housing provides a modern and durable finish. Suitable for wall and ceiling mounting. This version is finished in white. This product is only suitable for outdoor use.
