

Modular power supply 24 V DC, 100 W

340-00051

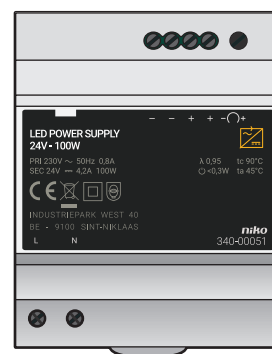

4 year warranty

This power supply is suitable for DIN-rail mounting. It has a power supply of 100 W. This power supply conforms to the European directive for EMC and safety.

Technical data

Modular power supply 24 V DC, 100 W.

- Maximum MCB rating: 6 A (limited by national installation rules)
- Maximum load: 100 W
- Primary wire connection: double primary terminal connection: 1 x 2.5 mm² or 2 x 1.5 mm² per screw terminal
- Secondary wire connection: Fourfold secondary terminal connection: 1 x 2.5 mm² or 2 x 1.5 mm² per screw terminal
- Protection degree: IP20
- Safety protections: self-resetting, built-in protection against short-circuit, overload and overheating
- Protection class: Class II device: SELV (safety extra low voltage), independent device
- Usage: for indoor use only
- DIN dimensions: DIN 4TE
- Dimensions (HxWxD): 90 x 70 x 55 mm
- Marking: CE
- Weight: 452 g
