

8HNA-PK32: Henco Press 75x32

Commercial information

The Super Size range includes the Henco multilayer pipe and Henco fittings with diameters of 75-90, with reducers to diameters of 32-40-50-63. The connectors ensure a complete multilayer pipe system with numerous variations for headers and risers. The many combination possibilities and the revolutionary connection technology make this modular system extremely flexible.

Like all Henco press fittings, the Super Size fittings come with leak detection and are made from high-performance plastic PVDF. These properties make the Henco Super Size fittings suited for different applications, such as drinking water installations, heating installations and installations in the chemical and food industries.
