ABB EcoSolutions™ – GF875…GF1325

High-Performance Control for Reliable, Efficient Operations
ABB's GF875…GF1325 contactors combine strength and sustainability for demanding applications. Their energy-efficient design minimizes power losses, while durable construction extends product lifetime and reduces material waste. By optimizing performance with lower environmental impact, these contactors support ABB’s commitment to a more sustainable, energy-smart future.

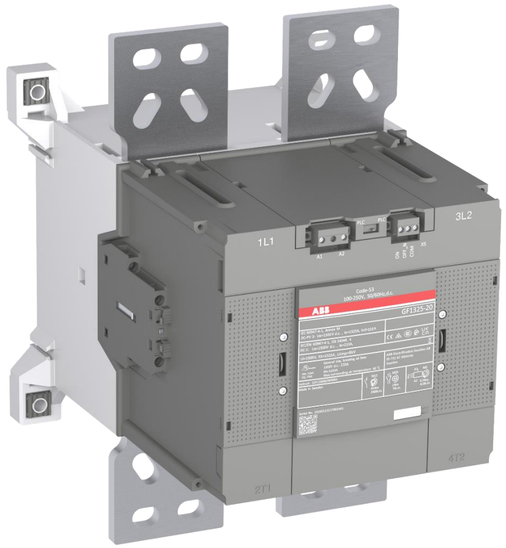

ABB Eco Solutions™

End-of-life instructions
Closing the loop with instructions to maximize the recyclability embedded in circular design.

Designed for recyclability at end of life
Recyclability rate 71.2% according to EN45555.

Improved Efficiency
Energy efficient product due to lower average energy consumption during use phase compared to equivalent products available in the market.

Produced in a Zero Waste to Landfill site
Validated by UL2799.

Third-party verified Environmental Product Declaration
EPDs compliant with ISO 14025 Type III (externally verified) ensure data accuracy and full transparency on the product's environmental impacts throughout its life cycle.

Low carbon manufacturing
This product is manufactured in ABB facilities powered by renewable energy.
