

UFH-C191800: Thermometer with immersion tube temp. 0/60gr

Commercial information

UFH-C191800 is an analogue thermometer with an immersion line that measures temperatures from 0 to 60 °C.

- Thermometer
- Includes immersion line
- 0 - 60 °C

Basic unit dimensions

Height	63 mm
Length	60 mm
Width	63 mm
Net weight	0.093 kg

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

Material immersion tube Brass
