

# Product data sheet Spirotech

## Product name

**ETCM Solo-1 max 8,4bar**

## Product properties

The TopControl Modular SOLO is an automatic expansion and pressure-maintaining device. The unit contains a VFD pump (1x 100%) and an electronically controlled overflow valve. A separate EP storage tank is required.

- 1 VFD pump (1x 100%)
- 1 electronically controlled overflow valve (1x 100%)
- At least 1 unpressurized expansion vessel needs to be added
- Operational pressure range up to 8.4 to 23.5 bar
- The maximum temperature at the point of connection: 70°C (over 70°C possible with auxiliary tank)
- Maximum safety temperature in the system: 110°C
- Maximum operating pressure (PN): 10 to 25 bar

## Article number

**ETCM-S1-8.4**

## ETIM product data

|                                |           |
|--------------------------------|-----------|
| Height                         | 1150 mm   |
| Max. operating pressure        | 8.4 bar   |
| Connection                     | Other     |
| Power consumption              | 1.3 kW    |
| Couplable                      | Yes       |
| Electrical connection          | Terminals |
| Function master/slave          | No        |
| With pressure expansion vessel | No        |
| Digital control unit           | Yes       |
| Double pump                    | No        |

|                                       |             |
|---------------------------------------|-------------|
| With exchangeable membrane            | No          |
| Compressor in base                    | No          |
| Nominal diameter expansion connection | 1 inch (25) |
| Max. medium temperature (continuous)  | 70 °C       |
| For heating systems up to             | 1 MW        |
| Horizontal positioning                | No          |
| Connection voltage                    | 230 V       |
| Article compression class             | PN 10       |
| Operating principle                   | Pump        |
