

Walraven Yeti® 480 Support System

(10405)

for Rooftop Installations

Features & benefits

- modular supporting system for HVAC equipment, solar panels, walkways, pipe work, cable runs, etc.
- for flat and low pitched roofs
- adjustable up to 7° to compensate roof pitch
- 360° rotatable insert for Walraven RapidStrut® 41x41 or Walraven RapidStrut® DS 5 (41x52 mm)
- with non-slip anti-vibration mat (at PVC roofs a separating layer must be installed to protect against plasticizer migration - see Walraven Walraven Yeti® Triplex Separation Layer)
- with optional stackable ballast block for increased weight / stability
- mouldings made of WPC, a composite of recycled plastic and wood fibre
- resistant to UV and chemical influences
- UV-resistance according to EN ISO 16474-3:2014-02 - certified by ITB
- For a detailed calculation and for support how to spread the load please contact Walraven Technical Support.
- In cases where a foot is used in roof applications, the installer is obliged to verify maximum load capacity of roof before installation.
