Product data sheet Spirotech

Product name

SpiroCombi -DN150 -Magnet -Weld

Article number

BC150LM

Product properties

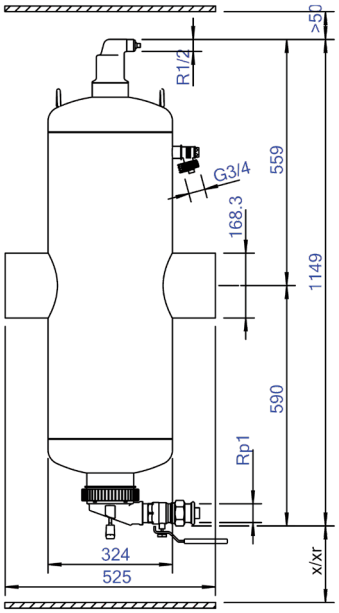

A steel (microbubble) deaerator and dirt separator with magnet for standard flow rate (1.5 m/s) with a DN50 - DN150 weld connection

- Combined separation system - removes circulating air and microbubbles effectively
- Improve cost control and energy efficiency
- Applicable with 50/50 Ethylene Glycol / Water (Volume)
- Very small particles, from 5 µm (= 0.005 mm), are separated and removed
- Including a magnet for extra protection and high efficient removal of magnetite
- Dirt can be discharged while the system is in operation
- No shut-off valves or bypass required
- Constant low pressure drop
- Weld connections
- Connection diameters from DN50 - DN150, larger connection diameters on request
- Exceptional guarantee

Product data sheet Spirotech

ETIM product data

Housing material	Steel
With drain valve	Yes
Housing material quality	St 37 (1.0254)
Backwash filter	No
Medium temperature (continuous)	0 - 110 °C
Max. operating pressure	10 bar
KVS value [m3/h] at ΔP 1 bar	490.9 m^3/h
Variable flow direction	Yes
With insulation	No
Separator type	Air/dirt
Connection	Welded end
Model	Horizontal
Nominal diameter	DN 150
Max. glycol mixture	50 %
Suitable for heating	Yes
Suitable for cooling	Yes
Construction length	525 mm

Article compression class	PN 10
Suitable for open system	No
Suitable for closed system	Yes
Suitable for solar	No
With dismountable filter	No
Filter volume	50 l
Magnet operating principle	Yes
With automatic de-aerator	Yes
Cleaning possible during operation	Yes
With couplers	No
Inlet/outlet offset distance	0 mm
Material of connection	Steel
Flow-through capacity	0 - 108 m^3/h
Magnet location	Internal
Flange standard	Other
Surface protection housing	Lacquered
