

# Product data sheet Spirotech

## Product name

**EMCM Maxi-2 max 7,8bar Twin**

## Product properties

The MultiControl Modular MAXI Twin is an automatic expansion and pressure-maintaining device. The unit contains 2 pumps (2x 100%) and 2 overflow valves. A separate storage tank is required.

- 2 pumps (2x 100%)
- 2 overflow valves (2x 100%)
- At least 1 unpressurized expansion vessel needs to be added
- Operational pressure range up to 4.0 to 16.0 bar
- The maximum temperature at the point of connection: 70°C (over 70°C possible with auxiliary tank)
- Maximum safety temperature in the system: 110°C
- Maximum operating pressure (PN) up to: 25 bar

## Article number

**EMCM-M2-7.8-twin**

## ETIM product data

|                                |           |
|--------------------------------|-----------|
| Height                         | 1359 mm   |
| Max. operating pressure        | 7.8 bar   |
| Connection                     | Other     |
| Power consumption              | 2.4 kW    |
| Couplable                      | Yes       |
| Electrical connection          | Terminals |
| Function master/slave          | No        |
| With pressure expansion vessel | No        |
| Digital control unit           | Yes       |

|                                      |       |
|--------------------------------------|-------|
| Double pump/compressor unit          | Yes   |
| With exchangeable membrane           | No    |
| Compressor in base                   | No    |
| Max. medium temperature (continuous) | 70 °C |
| For heating systems up to            | 1 MW  |
| Horizontal positioning               | No    |
| Connection voltage                   | 400 V |
| Article compression class            | PN 16 |
| Operating principle                  | Pump  |
