ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: ET-IRSP-RC-580-W
Art. Nr.: 60069

9120105419024

Short description
Infrared stand panel, white, 60x90cm, 580W, incl. remote control

Product Description
ETHERMA infrared stand panel with remote control is a mobile infrared heater, which can be used in almost any premises, such as living rooms, offices, bathrooms or containers, either as an additional heat source or as a stand-alone heating system. Due to the extremely light construction, the panel can be easily placed in different locations. The infrared heating is ready for use at any time and can be easily controlled by the integrated remote control. In addition to the room temperature measurement and temperature drop detection, a weekly program can be programmed. Due to the homogeneous surface temperature, a uniform heat emission takes place at the placed location - without time-consuming installation work. The infrared panel itself is only 22mm thin and fits into any room due to its simple white design. Power: 350W or 580W; smooth surface, protection class: IP 54, Including connection box on the back of the device with on/off switch; surface temperature: max. 95 °C, plug cable: 1 m

ETIM 10 Characteristics

Type of IR radiation	IR-C	**Power consumption**	580 Watt
Mounting method	Freestanding	**Supply voltage**	230|230 Volt
Mounting direction	Horizontal	**Frequency supply voltage**	50|50 Hertz
Suitable for ceiling mounting	✖	**Max. surface temperature**	95 Degrees celsius
Degree of protection (IP)	IP54	**Height**	600 Millimetre
Colour	White	**Width**	900 Millimetre
With imprint	✖	**Depth**	22 Millimetre
With room temperature controller	✔	**RAL-number**	9016
With mounting material	✔		
Material frame	Aluminium		
Surface treatment	Lacquered		
Surface structure front panel	Smooth		
With lighting cove	✖		
Dimmable	✖		
Light outlet	Direct
