ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: LAVA3-BASIC-680EP-NA
Art. Nr.: 46385

9120129931915

Short description
Infraredheating, wall/ceiling, nano anthracite, 1195x595mm, 680W, 230V

Product Description
The LAVA BASIC 3.0 is an infrared heater only 18 mm deep, which is suitable for both ceiling and wall heating and generates infrared radiant heat using a special magnetic field-free heating element. Unlike conventional heaters, it not only heats the air, but also all people and objects in the room. The appliances are also ideal for full or zone heating. When installed in false ceilings, the heating is fully integrated into the ceiling. Ceiling installation allows the room to be optimally utilized and also prevents damage to the heater. The revised bracket makes installation even easier for one person. Available in the colors traffic white RAL 9016 and nano anthracite RAL 7016 and in up to 8 outputs (200-1350 W). Finely textured surface, protection rating: IP X4, surface temperature: ceiling mounting max. 120 °C / wall mounting max. 95 °C, mounting depth: 48 mm, CE-compliant; connection cable: 1 m, 3 x 1.0 mm2 without plug, 230 V.

ETIM 10 Characteristics

Type of IR radiation	IR-C
Mounting method	Surface mounting
Mounting direction	Horizontal/vertical
Suitable for ceiling mounting	✔
Degree of protection (IP)	IPX4
Colour	Grey
With imprint	✖
With room temperature controller	✖
With mounting material	✔
Material frame	Other
Surface treatment	Other
Surface structure front panel	Smooth
With lighting cove	✖
Dimmable	✖
Light outlet	Direct

Power consumption	680 Watt
Supply voltage	230|230 Volt
Frequency supply voltage	50|50 Hertz
Max. surface temperature	120 Degrees celsius
Height	595 Millimetre
Width	1195 Millimetre
Depth	48 Millimetre
RAL-number	7016
