ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: LAVA-DESK-SUB-90-W
Art. Nr.: 46378

9120129931847

Short description
Workplace heating under the desk, 600x200mm, 90W, White, Timer, 230V

Product Description
The LAVA® DESK SUB creates an individual and at the same time extremely efficient heat zone under the desk. With four simple and flexible mounting options under the desk, the LAVA® DESK SUB can be used flexibly. Thanks to the new GRP technology, the heating effect can be felt as soon as it is switched on. This means that the ambient temperature can be significantly reduced and workstations can only be heated when they are actually in use - without sacrificing the individual comfort of employees. Studies (TU Dresden) show that considerable cost savings of up to 30 % can be achieved and that a workplace can be heated for as little as EUR 50 per year. The LAVA® DESK SUB can be controlled intuitively using the timer function and also in three dimming levels using a separate control element on the plug cable. Output 90 W, available in white RAL 9016 and black RAL 9005, device depth: 14 mm, protection rating: IP 21, protection class II, 230 V.

ETIM 10 Characteristics

Type of IR radiation	IR-C	**Power consumption**	90 Watt
Mounting method	Surface mounting	**Supply voltage**	230|230 Volt
Mounting direction	Horizontal	**Frequency supply voltage**	50|50 Hertz
Suitable for ceiling mounting	✖	**Max. surface temperature**	85 Degrees celsius
Degree of protection (IP)	IP21	**Height**	200 Millimetre
Colour	White	**Width**	600 Millimetre
With imprint	✖	**Depth**	14 Millimetre
With room temperature controller	✔	**RAL-number**	9016
With mounting material	✔		
Material frame	Aluminium		
Surface treatment	Untreated		
Surface structure front panel	Smooth		
With lighting cove	✖		
Dimmable	✔		
Light outlet	Direct
