

New interface relays available

ABB extends its assortment of Electronic Products and Relays by an assortment of pluggable interface relays. Three product ranges are available: the CR-P range of pluggable PCB relays, the CR-M range miniature relays and the CR-U range universal relays.

The pluggable interface relays are available with 10 different coil voltages from 12V DC and 24V AC up to 220V DC and 230V AC. For all relays pluggable function modules are available. All relays are cadmium – and lead-free.

The main features of the three product families are as follows:

Pluggable PCB relays CR-P

- 1 or 2 change-over contacts
- 1 change-over contact with 250V / 16A
- 2 change-over contacts with 250V / 8A
- Logical or Standard socket
- Approvals: UL, CSA, GOST, VDE

Pluggable miniature relays CR-M

- 2, 3 or 4 change-over contacts
- 2 change-over contacts with 250V / 12A
- 3 change-over contacts with 250V / 10A
- 4 change-over contacts with 250V / 6A
- Locking lever for manual operation and fixing possibility (DC versions blue colour, AC versions orange colour)
- With or without built-in LED
- 4 change-over contacts optionally equipped with gold plated contacts and LED
- Logical or standard sockets
- Approvals: UL, CSA, GOST, VDE,
Lloyds Register Type Approval (4c/o type)

Pluggable universal relays CR-U

- 2 or 3 change-over contacts with 250V / 10A
- Locking lever for manual operation and fixing possibility (DC versions blue colour, AC versions orange colour)
- With or without built – in LED
- Approvals: UL, CSA, GOST, VDE, Lloyds Register Type Approval
