ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: LAVA-DESK-TOP-50-W
Art. Nr.: 46376

9120129931823

Short description
Workplace heating on the desk, 600x120mm, 50W, White, Timer, 230V

Product Description
The LAVA® DESK TOP creates an individual and at the same time extremely efficient heating zone on the desk, with particular attention paid to design, efficiency and optimum integration on the desk. Free-standing on the desk, it integrates perfectly, looks like an elegant design element and provides warmth for the hands and upper body. Thanks to the new GRP technology, the heat effect can be felt as soon as it is switched on. This means that the ambient temperature can be significantly reduced and workstations can only be heated when they are actually in use - without sacrificing the individual comfort of employees. Studies (TU Dresden) show that considerable cost savings of up to 30 % can be achieved and that a workplace can be heated for as little as EUR 50 per year. The LAVA® DESK TOP can be controlled intuitively using the timer function on the device. Power 50 W, available in white RAL 9016 and black RAL 9005, device depth: 14 mm, protection class: IP 21, protection class II, 230 V.

ETIM 10 Characteristics

Type of IR radiation	IR-C	**Power consumption**	50 Watt
Mounting method	Freestanding	**Supply voltage**	230|230 Volt
Mounting direction	Horizontal	**Frequency supply voltage**	50|50 Hertz
Suitable for ceiling mounting	✖	**Max. surface temperature**	85 Degrees celsius
Degree of protection (IP)	IP21	**Height**	120 Millimetre
Colour	White	**Width**	600 Millimetre
With imprint	✖	**Depth**	14 Millimetre
With room temperature controller	✔	**RAL-number**	9016
With mounting material	✔		
Material frame	Aluminium		
Surface treatment	Untreated		
Surface structure front panel	Smooth		
With lighting cove	✖		
Dimmable	✖		
Light outlet	Direct
