

## PRODUCT DATASHEET

**Type:** ET-14A  
**Art. Nr.:** 40595

9120061394663

### Short description

Radio room thermostat with clock, LCD display and weekly program

### Product Description

The ET-14A is a radio room thermostat with clock for temperature detection in residential, office and hotel rooms. Elaborate tear-out and plastering work for cable laying is avoided and enables simple installation. The thermostat can be mounted on a flush-mounted box or surface-mounted on the wall. A support base also enables free-standing operation. The thermostat has 5 operating modes (comfort, set-back, frost protection, auto and off) as well as weekly and daily programming. In conjunction with the ET-14A-FK window contact, open windows and thus a drop in temperature are detected. Complies with ecodesign directives. Temperature range: 5 to 30 °C, protection class: IP 30, color: RAL 9010, dimensions: 135x80x23 mm, power supply: Micro AAA batteries (included), frequency: 868 MHz, range 100 - 300 m, CE compliant.

### ETIM 10 Characteristics

<b>Networkable via radiografic (standard)</b>	✓	<b>Supply voltage</b>	3 Volt
<b>Networkable via radio (optional)</b>	✓	<b>Output voltage</b>	0 Volt
<b>Connection for external antenna</b>	✗	<b>Number of channels/zone</b>	1
<b>Smart control</b>	✓	<b>Max. power per channel</b>	0 Voltampere
<b>Suitable for heating</b>	✓	<b>Reception frequency</b>	868 Megahertz
<b>Suitable for cooling</b>	✗	<b>Max. contact voltage</b>	0 Volt
<b>With time switch clock</b>	✓	<b>Max. contact load</b>	0 Ampere
<b>With extra contact</b>	✗	<b>Width</b>	135 Millimetre
<b>Contact type</b>	Other	<b>Height</b>	80 Millimetre
<b>Degree of protection (IP)</b>	IP30	<b>Depth</b>	23 Millimetre
