

Niko Access Control - modular splitter for splitting the video signal between 4 lines

10-822-01

4 year warranty

The video splitter for DIN-rail mounting splits the video signals between 4 lines. It is equipped with an active amplifier. Depending on the number of active participants, you can include more than one video splitter in your installation.

Technical data

Niko Access Control - modular splitter for splitting the video signal between 4 lines for supplying power up to 4 video signal lines - connection to NACS video 5-wire or 6-wire system - output position per output from 0dB to +12dB / manually adjustable - compensation frequency characteristics per output from 0dB to +12dB / manually adjustable - input current: $I(a) = 0.0\text{mA}$, $I(P) = 160\text{mA}$ (idle condition / no load) - maximum input current: 200mA - input voltage: 26V DC (from P conductor) - input, output impedance: 100Ohm balanced - allowed ambient temperature: 0 to 40°C - suitable for mounting on DIN rail, 6E, DIN EN 50022 - dimensions: H 90 x D 105 x W 70mm (6E)

- Weight: 190 g
- Dimensions (HxWxD): 92 x 105 x 70 mm
- Marking: CE
