

# ABB EcoSolutions™ – FlexLine RCCBs

## FX200 – residual current circuit breakers

FlexLine® - Simply fits.

The FX200 range of FlexLine® Residual Current Circuit Breakers (RCCBs) is designed to protect people and equipment from ground faults, providing reliability and safety in all operating conditions. Different types are available depending on the current wave that the device can detect.

As part of the FlexLine® system, FX200 can be flexibly arranged with other FlexLine® devices with the PSX busbar, saving time and space.

### End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

### Enhanced durability

Tested for double the standard amount of electrical and mechanical endurance (7,000 cycles vs. 2,000 cycles described in the product standard).

### Designed for high recyclability & lower material use

Up to 49.8% recyclability rate, calculated according to EN 45555.

### Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations.

### Sustainable packaging materials

Packaging is made of 78% recycled paper.

#### Third-party verified Environmental Product Declaration

EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle ([LINK](#) to the EPD).

#### Low-carbon manufacturing

This product is manufactured in an ABB facility that is powered by renewable energy.
