

DATA ACT (EU REGULATION 2023/2854) , 09.07.2025

Information notice

ABB-free@home system + ABB-flexTronics+ free@home NEXT App

If you are interested in the provision of an ABB Related Service this information notice (“**Notice**”) provides you with information according to the Data Act (EU Regulation 2023/2854)¹.

All terms in this Notice shall have the same meaning as in the Data Act.

Should you require additional information beyond what is provided in this Notice, please do not hesitate to contact us at eu-data-act@abb.com

Details on the Connected Product

When ABB provides you for the free@home system, ABB obtains or may obtain Product Data from the free@home System Access Point

Your Connected Product	See Table 1
Nature of Product Data ABB obtains	For a reference of possible data generated local in the system to operate see: https://developer.eu.mybuildings.abb.com/fah_cloud/reference/functionids https://developer.eu.mybuildings.abb.com/fah_cloud/references/pairingids
Format of Product Data ABB obtains	N/A all data is only stored and processed for and by the customer (end user), not for ABB
Estimated volume of Product Data ABB obtains	N/A
Collection frequency of Product Data ABB obtains	N/A
[to be included “where relevant”:]	

¹ Regulation (EU) 2023/2854 of the European Parliament and of the Council on harmonised rules on fair access to and use of data (Data Act) those terms shall have the same meaning as in that Union legislation.

Information on how to access and retrieve Product Data ABB obtains	The data can be only made accessible by ABB when the system and components are connected to ABB myBuildings /my-Busch-Jaeger Platform. Otherwise ABB is not data holder. Data can be requested via eu-data-act@abb.com .
Storage place of Product Data ABB obtains	On device and optional cloud when the user connects to services described below, see attached table
Intended duration of retention of Product Data ABB obtains	We process and store your personal data as long as this is necessary for the aforementioned processing purposes, unless you object to the use of your personal data, providing there is a legitimate interest forming the legal basis for its processing (Art. 6 (1) (f) GDPR), or until you withdraw your consent that was granted according to Art. 6 (1) (a) GDPR (Art. 7 (2) (3) of the German Act against Unfair Competition (UWG)). In relation to the processing purposes mentioned in this data protection information, we process and store your personal data as long as this is necessary to provide you with the portal services and software solutions and consequently to fulfil our contractual and legal obligations with respect to the terms of use agreed upon between you and us, and other contracts relating to the services of the myBuildings portal and myBuildings apps as well as building automation products. In the above sections on data processing, we have given you additional information on the duration of the particular data processing. Your personal data will be deleted as soon as the purposes of processing described above no longer apply. Beyond the achievement of this purpose, your personal data can nevertheless be stored as far as we are obliged to do so due to associated legal regulations. In this case, the processing of your personal data is restricted and it will be deleted after the respective legal obligation (e.g. commercial and tax storage obligations) has ceased to apply or has been fulfilled.
How ABB uses Product Data	ABB has no access or is using this data if the solution is used locally and without related services. If system is connected to myBuildings /my-Busch-Jaeger platform and related services data is used to provide the functionality of the solution.
How ABB discloses Product Data	Via corresponding app or portal.
Are trade secrets contained in the data accessible from the Connected Product?	No trade secrets are made accessible.

Information regarding the Related Service provided by ABB

When ABB provides you with additional services via free@home NEXT app or Mybuildings / myBusch-Jaeger platform, Related Service Data will be generated when you use the Related Service.

Related Service	Remote control, remote maintenance via Pro-Service Portal
-----------------	--

Data Holder for Related Service Data	Busch-Jaeger Elektro GmbH (ABB AG Mannheim)
Information on other data processing entities	See table 3
Information on how to access and retrieve Related Service Data	Access to the data is not possible directly. If data is requested / required, please send an enquiry to eu-data-act@abb.com
Information on how to request sharing of Related Service Data with a third party	The request how to share related service data with a third party is not directly possible. Please send a request to eu-data-act@abb.com
Nature of Related Service Data	See attached table 2
Estimated volume of Related Service Data	N/A
Storage place of Related Service Data	ABB myBuildings platform (Microsoft Azure Infrastructure)
Intended duration of retention of Related Service Data	For the time of active service use
How ABB intends to use Related Service Data	Data is only disclosed to the user, not used by ABB or its partners. The data is only used to provide the functions and services associated with the product
How ABB intends to disclose Related Service Data	N/A
Are trade secrets contained in the data generated during the provision of the Related Service?	No
Intended duration of provision of Related Service	For the time of active service use.

Each EU Member States has designated one or more competent authorities to be responsible for the application and enforcement of the Data Act. Without prejudice to any other administrative or judicial remedy, you may lodge a complaint with the relevant competent authority in the EU Member State of your habitual residence, place of work or establishment if you consider that your rights under the Data Act have been infringed.

Information regarding the Related Service provided by ABB

When ABB provides you with 3rd party Integrations via myBuildings / myBusch-Jaeger Cloud connector, Related Service Data will be generated when you use the Related Service.

Related Service	Alexa Voice Control, Google Home, Ledvance, Miele, HomeConnect
Data Holder for Related Service Data	N/A – no data is stored for this service
Information on other data processing entities	Amazon (voice control) Google Home (voice control)
Information on how to access and retrieve Related Service Data	No related service data are available on ABB side. Data is only processed to third party to ensure the 3 rd party service functionality.
Information on how to request sharing of Related Service Data with a third party	No related service data are available at ABB. Please send a request to the corresponding third party service provide.
Nature of Related Service Data	N/A
Estimated volume of Related Service Data	N/A
Storage place of Related Service Data	N/A
Intended duration of retention of Related Service Data	N/A
How ABB intends to use Related Service Data	N/A
How ABB intends to disclose Related Service Data	N/A
Are trade secrets contained in the data generated during the provision of the Related Service?	no
Intended duration of provision of Related Service	N/A

Each EU Member States has designated one or more competent authorities to be responsible for the application and enforcement of the Data Act. Without prejudice to any other administrative or judicial remedy, you may lodge a complaint with the relevant competent authority in the EU Member State of your habitual residence, place of work or establishment if you consider that your rights under the Data Act have been infringed.

Table 1

Devices

Product ID	Extended Product Type	Material Short Description EN	Device Type
2CKA006220A0031	6200 AP	System Access Point, 230V	Internet Facing / System device

Table 2

Data which may be processed when you use the on-top services offered by myBuildings/ myBusch-Jaeger platform

Category	Subject
Account	• IP address of the device establishing the connection to the portal, • Date and time of connection establishment and logon, • Language and version of the browser software used • the indication of the customer group (end customer or business customer), • the contact details (first and last name, valid e-mail address, country), • a username and a password.
System connection	• Date and time of connection establishment and logon, • Date and time of the logon. • Configuration data and other device data that you have configured in your user account (e.g. serial number, controller specifications, software versions of the individual components), • Status data of the building security systems (e.g. sensor readings, system time, timer program information, status/error messages of the devices), • Notification settings, • Any user-defined names of the main location and rooms • Location data (e.g. to retrieve weather and time information) • The lock code of your keypad, if it has one and if there is a keypad connected, • Still image and video recordings ("external station snapshots") of a camera mounted by the user in or on the building (when using the ABB/Busch Welcome or Welcome IP door communication system), • History data of the building security systems, • Usage data (e.g. frequency of use, registered crashes, hardware/software errors).
	• Notifications • Time of sending, • Status of sending, • Push API key, • Number of sent SMS or push messages, • Recipient (mobile phone number or e-mail address), • Content of the message. • OAuth token,

	• Serial number/ID of the devices/programs/system variables to be controlled, • Datapoints of the devices, • Names of the devices/programs/system variables, • Status of the devices/system variables. • Name and first name, • E-mail address, • Serial number/ID of the devices/programs/system variables to be controlled, • Datapoints of the devices, • Names of the devices/programs/system variables, • Status of the devices/system variables, • Firmware, • Apps (e.g. remote access, Amazon Alexa, Home Appliances) • Enabling of remote maintenance for access to the customer system • Device class, • Firmware version, • Version of the operating software, • Memory capacity utilisation, • CPU capacity utilisation, • Error data (referred to as logfiles). • Type and number of linked systems (e.g. Philips Hue, Sonos) • Type and number of linked mobile devices • Set national language • Installation location (country) • Device settings (parameters) • Access data to the user account, • Configuration data and other device data that you have configured in your user account (e.g. serial number, controller specifications, software versions of the individual components), • Status data of the free@home systems (e.g. sensor readings, system time, timer program information, status/error messages of the devices), • Notification settings, • Any user-defined names of the main location and rooms • Location data (e.g. to retrieve the location of a device or weather information, or to detect arrival), • The lock code of your keypad, if it has one and if there is a keypad connected, • Still image recordings ("external station snapshots") of a camera mounted by the user in or on the building (when using the ABB/Busch Welcome door communication system), • History data of the building control system,
--	--

	Usage data (e.g. frequency of use, registered crashes, hardware/software errors, operating hours).
--	--

Table 3

3rd Party Data Processor

Recipient name	Recipient location	Purpose	Safeguards in place to protect your personal data
Q:marketing AG	Düsseldorfer Straße 193, 45481 Mülheim an der Ruhr, Deutschland	Provides and develops functions and components of the portals	- Data processing agreement according to Art. 28 (3) GDPR in place - Recipients' location is in the EU and the GDPR applies
Devision Ltd.	1715 Sofia, Bulgaria 80A Aleksandar Malinov, 6th floor	Provides and develops functions and components of the portals	- Data processing agreement according to Art. 28 (3) GDPR in place - Recipients' location is in the EU and the GDPR applies
Gonicus GmbH	Möhnestraße 55, 59755 Arnsberg, Deutschland	Application service provider for core portal components	- Data processing agreement according to Art. 28 (3) GDPR in place - Recipients' location is in the EU and the GDPR applies
Microsoft Corporation	One Microsoft Way, Redmond, WA 98052-6399, USA	Infrastructure provider for key portal components, Microsoft Azure infrastructure	- Data processing agreement according to Art. 28 (3) GDPR in place - Standard Model Clauses agreed with the Recipient - Recipient is party to the Privacy Shield
BS PAYONE GmbH	Lyoner Straße 9, D-60528 Frankfurt/Main, Deutschland	Payment service provider for portal Checkout application	- Data processing agreement according to Art. 28 (3) GDPR in place - Recipients' location is in the EU and the GDPR applies
