

WAGO Lighting Management is a highly sophisticated solution for lighting control in large spaces, such as production facilities and warehouses. Using a combination of predefined hardware and user-friendly software, WAGO offers a lighting management system that facilitates the design and commissioning of new lighting systems while providing numerous additional advantages for their operation. The basic idea: WAGO Lighting Management is ready for the vastly different light requirements of warehouses and production facilities. For example, a production facility can be divided into virtual rooms in which the light can be flexibly adapted. Each virtual room receives signals from sensors and actuators in order to automatically set the appropriate light intensity. Virtual rooms allow quick, easy implementation of both conversions and remodeling via Web configuration.

Compatible Controller:

- Controller PFC200; 2nd Generation; Item No.: 750-8212

Notes	
Note	The "Lighting Management" Software is a pre-programmed application based on the <i>e!</i> COCKPIT Development Environment and can be used for both PFC200 G2 Controllers or Touch Panels 600. To download the application and license to the device, WAGOupload software is required, which can be obtained free of charge from the WAGO homepage. Internet connection may be required for license activation. Anzahl unterstützter DALI Linien: 10

Software data	
Supported devices	750-8212; PFC200; G2; 2ETH RS

Delivery	
Delivery type	License certificate by email (software available for download)
Licence Generation	DRM

Commercial data	
ETIM 8.0	EC000757
ETIM 7.0	EC000757
PU (SPU)	1 pcs
Country of origin	QU
GTIN	4055143962674
Customs tariff number	88888888888

Environmental Product Compliance	
RoHS Compliance Status	Compliant, No Exemption
