

Label holder

170-00090

This label holder is used to identify switching material in a way that is safe and cannot be lost. Compatible with all functions on the base 60/71 and with the faceplates Niko Intense White with fixed transparent text field. The label holder is clicked onto the top of the base meaning it cannot get lost when the faceplate is removed (e.g. during painting or cleaning).

This article is protected by at least one patent (or patent application). For more info on patents, see www.niko.eu/innovation.

Technical data

Label holder

The label holder is used to identify switching material in a way that is safe and cannot be lost. Compatible with all functions on the base 60/71 and with the faceplates Niko Intense White with fixed transparent text field. The label holder is clicked onto the top of the base meaning it cannot get lost when the faceplate is removed (e.g. during painting or cleaning). The label holder is made of plastic reinforced with fibreglass (PBT). Maximum dimensions of the label: 43 x 5 mm.

- Protection degree: IP41 for the combination of a mechanism, central plate and faceplate
- Impact resistance: the combination of a mechanism, a central plate and a faceplate has an impact-resistance of IK06
- Marking: CE
