Walraven VibraTek® MS-1X-CBL Spring Mount *(L20533)*

high performance spring isolator for use with A-L1 welding bracket and concrete inertia base frames

Features & benefits

- recommended for machinery with low working speeds above 600 rpm
- flexible internal filler prevents debris and solid elements entering and damaging the spring under load
- ribs in the metal base provide increased stiffness
- slot holes facilitate positioning and anchoring to the base material
- epoxy powder-coated base, caps and springs provide increased resistance to corrosion
- average ratio Kx / Kz = Ky / Kz = 0.7
- working temperature range -90 °C till 150 °C
