

## 13SK-200520: T-female centre 20x3/4"x20

## Commercial information

The construction of the push fitting shows that Henco Vision is the result of sophisticated product development. All of its components have been made with the greatest precision and are manufactured from the best materials. Henco Vision push fittings are made from a high-quality synthetic material with a unique range of properties:

- Extremely resistant to pressure and temperature.
- Outstanding mechanical strength.
- Constanting friedrantical strength.
  Enormous flexibility: can bend up to 10° at 95°C.
  Perfectly suitable for drinking water and foods Henco Vision push fittings can be used for both sanitary and heating applications.
  Ease of use fast assembly: The Henco push fitting guarantees an extremely fast and reliable connection. All you need to make a perfect connection is a pipe cutter and a calibrator. Pressing tools are not required. You only need to follow three steps for a fast and reliable connection, in combination with the Henco PE-Xc/AL/PE-Xc multilayer pipe.

| Basic unit dimensions                     |                       |
|---|-----------------------|
| Height                                    | 33 mm                 |
| Length                                    | 119 mm                |
| Width                                     | 44 mm                 |
| Net weight                                | 0.143 kg              |
|   |                       |
| Certificates                              |                       |
