

# Product data sheet Spirotech

## Product name

**EVSolar Expansion vessel 35L, hanging**

## Product properties

Safety expansion vessel for solar systems, with a flanged, replaceable and frost-proof bag membrane to hold the expansion medium. P max. 6 bar / T max. 70°C.

- Tested according to Pressure Equipment Directive 2014/68/EU
- Max. temperature at connection point: 70 °C
- Max. operating pressure: 6 bar

## Article number

|                                       |   |
|---------------------------------------|---|
| Height                                | 500 mm  |
| Volume                                | 35 l  |
| Colour                                | Green   |
| Diameter                              | 360 mm  |
| Medium temperature (continuous)       | 0 - 70 °C   |
| Max. operating pressure               | 6 bar   |
| Connection                            | External thread conical BSPT-R (ISO 7-1 / EN 10226-1) |
| With pressure gauge                   | No  |
| With exchangeable membrane            | Yes   |
| Nominal diameter expansion connection | 3/4 inch (20)   |
| Horizontal positioning                | No  |
| Suitable for central heating          | No  |
| Vertical positioning                  | Yes   |

|                                      |  |
|--------------------------------------|--|
| With legs                            | No   |
| Material membrane/bladder            | Ethylene-propylene diene monomer rubber (EPDM) |
| With drain                           | No   |
| With safety valve                    | No   |
| With mounting material               | Yes  |
| Max. glycol mixture                  | 60 %   |
| Suitable for tap water               | No   |
| Max. ethanol mixture                 | 60 %   |
| Suitable for solar collector circuit | Yes  |
| Pre-pressure                         | 3.5 bar  |
| With fixed wall support              | Yes  |
| Suitable for cooling                 | No   |
