

# ABB EcoSolutions™ – MCB S800

## Incomparable performance to meet demanding requirements

The S800 range of High Performance Circuit Breakers is the choice for data centers, heavy duty industrial, telecom and renewable energy applications.

Thanks to an innovative short-circuit extinguishing technology, S800 devices are the ideal solution when both size and performance are key.

### End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use ([LINK](#) to the document)

### Enhanced durability

Tested for more than double the standard amount of electrical and mechanical endurance (up to 10,000 cycles vs. 2,000 cycles described in the product standard).

### Designed for high recyclability

Up to **86,3% recyclability rate**, calculated according to EN 45555.

### Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations.

### Third-party verified Environmental Product Declaration

EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle ([LINK](#) to the EPD).

### Low-carbon manufacturing

This product is manufactured in an ABB facility that is powered by renewable energy.
