

#Flyer\_Head  
Field\_A1#

The diagrams illustrate the wiring for three different plug types:

- 6211/1.1-WL:** Shows a Schuko plug (Type 1) with two pins. The wiring connects the L and N lines to the plug terminals, with a switch and light bulb in the L line.
- 6211/2.1-WL:** Shows a CEE plug (Type 2) with three pins. The wiring connects the L and N lines to the plug terminals, with a switch and light bulb in the L line.
- 6211/2.2-WL:** Shows a Type F plug with four pins. The wiring connects the L and N lines to the plug terminals, with a switch and light bulb in the L line.
