

## 17HNA-06-X: HN75 bracket connection R1" male inox

### Commercial information

The Super Size range includes the Henco multilayer pipe and Henco fittings with diameters of 75-90, with reducers to diameters of 32-40-50-63. The connectors ensure a complete multilayer pipe system with numerous variations for headers and risers. The many combination possibilities and the revolutionary connection technology make this modular system extremely flexible.

Like all Henco press fittings, the Super Size fittings come with leak detection and are made from high-performance plastic PVDF. These properties make the Henco Super Size fittings suited for different applications, such as drinking water installations, heating installations and installations in the chemical and food industries.

#### Basic unit dimensions

Height	78 mm
Length	42 mm
Width	78 mm
Net weight	0.337 kg

#### Certificates

#### Applications

Potable water, Heating, Cooling, Sanitary

#### Solutions

Building installations, Industry, Laboratory, Utility

## Technical characteristics

Material connection 1	Stainless steel	Length	42 Millimetre
Material quality connection 1	Stainless steel 316 L (1.4404)	Medium temperature (continuous)	-10 70 Degrees celsius
Surface protection connection 1	Untreated		
Surface treatment connection 1	Untreated		
Reducing	✘		
Eccentric	✘		
System specific	✓		
Nominal diameter connection 2	1 inch (25)		
Main colour fitting	Grey		
With buffer stud	✘		
With thermal insulation	✘		
With sealing rings/gaskets	✓		
Capped	✘		
With drain valve	✘		
With de-aerator	✘		
FM quality mark	✘		
LPCB quality mark	✘		
ULC quality mark	✘		
UL quality mark	✘		
DIN-CERTCO certificate	✘		
VdS quality mark	✘		
DVGW quality mark for gas	✘		
KIWA certified	✘		
Gastec QA mark	✘
