Short description
Infrared heater SMART, glass mirror, 160x50cm, 800W, 230V

Product Description
The LAVA 3.0 SMART is a glass infrared heater that is only 25 mm deep with an integrated SMARTBOX (control unit) and accompanying SMARTCUBE (wireless thermostat) for convenient control via the ETHERMA SMART app. The device is suitable for wall mounting. The magnetic field-free heating element generates direct radiant heat that warms people and objects, not the air. The 5 mm ESG glass front ensures high radiation efficiency and even heat distribution. The device is available in pure white, pure white satin or mirror finish and blends discreetly into any environment. The heater can be used as full or zone heating and is available in six power levels from 240 to 900 W. Protection class: IP X4. Surface temperature: max. 95°C. Mounting depth: 55 mm. Connection via 1 m plug cable, 3×1.0 mm2, 230 V. CE compliant.
