# Presence detector, DALI, master, 24 m, IP54, for flush mounting, white

#### 350-41750

4 year warranty

This presence detector (DALI daylight control, master) is designed for flush-mounting in ceilings of 2 -3.4 m. Standalone or as master combinable with a maximum of 10 secondary detectors. All-inone detector installed in a quick and flexible manner thanks to the addressable DALI bus. Manual control per zone via push button. For use in offices, schools, government buildings... in large and small spaces. The detector has 2 or 3 daylight-controlled zones and 1 or 2 secondary zones with on/off or dimming functionality. The detector is equipped with a potential-free relay contact for control of either light, HVAC or cut-off of voltage to the DALI luminaires.

There are four optional applications:

- mode 1: daylight control in 2 or 3 zones (DALI), 1 or 2 secondary zones (DALI) and the built-in relay contact is used for the switching of HVAC.
- mode 2: daylight control in 2 or 3 zones (DALI) and a 4th zone to switch the lighting on or off via the built-in relay contact.
- mode 3: daylight control in 2 or 3 zones (DALI), 1 or 2 secondary zones (DALI) and the built-in relay contact is used for the switching off of the 230V power supply of the control gear (minimum stand-by power consumption).
- mode 4: daylight control in up to 3 zones for corridors with day/night mode and relay output for HVAC.

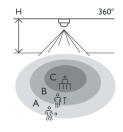

The detector is programmed using the (optional) remote control 350-41934.

Finishing colour: white

Compatible secondary detectors: 350-41752, 350-41753, 350-41762, 350-41763

- All-in-one solution
- Large detection range of 24 m
- Fast, flexible installation thanks to the addressable DALI bus
- Manual control by zone with push-button
- Replacement of a faulty DALI frame without reprogramming
- Two or three daylight control zones
- One or two secondary zones with stop/go or variation functionality
