

CU-WIFIRF: RF Wifi central unit

Commercial information

HencoLogic RF Wifi central unit

Basic unit dimensions

Height	42 mm
Length	117 mm
Width	158 mm
Net weight	0.001 kg

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Building installations, Industry, Underfloor heating, Utility

Technical characteristics

Regulation type on/off	✓	Number of heater outputs	50
Regulation type modulating	✗	Number of cooler outputs	50
Communications protocol	Brand-dependent	Number of ventilation outputs	0
Type of power supply	230 V		
Connection	Wireless		
With receiver	✓		
External sensor	✓		
With thermal feedback	✗		
Adaptive (self-learning)	✗		
Suitable for heating	✓		
Suitable for heating	✓		
Suitable for cooling	✓		
Ventilation	✗		
Temperature readable	✓		
With display	✓		
Type of clock	Other		
Clock model	Digital		
With tap water circuit	✗		
Operation	Touch screen		
Suitable for floor heating control	✓		
Suitable for district heating control	✓		
Remote operation possible	✓		
IFTTT support available	✗		
With presence perception	✗		
Weather-dependent control system	✗		
Degree of protection (IP)	IP30		
Colour	White
