

M-BA03: Kit: Press+batt. + charge unit + case, linear drive 32 kN max Ø63

Commercial information

- Reduced weight
- Lighting of the workplace
- LED indicator for machine performance
- Li-Ion battery 18V - 3Ah
- 350° reach
- Automatic piston return

Basic unit dimensions

Height	150 mm
Length	575 mm
Width	470 mm
Net weight	8.900 kg

Certificates

Applications

Potable water, Heating, Cooling, Compressed air, Sprinkler, Underfloor Heating, Gas, Sanitary

Solutions

Building installations, Industry, Underfloor heating, Fire protection, Oil & gas, Utility, Shipbuilding

Technical characteristics

Operation	Battery (rechargeable)	Suitable for pipe diameter	16 63 Millimetre
Suitable for steel tube	✓	Nominal voltage	18 Volt
Forced process	✗	Battery capacity	0 Ampere hour
Automatic switch-off	✗	Number of included batteries	1
With case	✓	Length	575 Millimetre
With charging cradle	✓	Weight	8.9 Kilogram
