Through terminal block, 2202 Series, blue

This through terminal block (item number 2202-1604) is designed for easy and secure connections. Conductors can only be connected to this through terminal block if their strip length is between 10 mm and 12 mm. Featuring conductor terminals along with Push-in CAGE CLAMP®, this connector outperforms the competition. Push-in CAGE CLAMP® connection technology is ideal for connecting all conductor types. Both solid and fine-stranded conductors with ferrules can be inserted without needing to use any tools—all thanks to its pluggable design. The item's dimensions are 5.2 x 66.1 x 39.5 mm (width x height x depth). This through terminal block is suitable for conductor cross sections ranging from 0.25 mm² to 4 mm². It comes with one level and two clamping points that you can use to connect a single potential. The blue housing is made of polyamide (PA66) for insulation. These function terminal blocks are mounted using DIN-35 rails. This product is designed for specific Ex applications (please refer to the product datasheet).
