Through terminal block, 2007 Series, gray

Quick and easy connections are guaranteed with this through terminal block (item number 2007-8801/040-000). Conductors can only be connected to this through terminal block if their strip length is between 13 and 15 mm. This product features conductor terminals and utilizes Push-in CAGE CLAMP®. Our Push-in CAGE CLAMP® is a universal, maintenance-free connection solution for all conductor types, boasting a key feature: both solid and fine-stranded conductors with ferrules can be directly inserted without the need for tools or any preparation, such as crimping the ferrule. This through terminal block is suitable for conductor cross sections ranging from 0.5 mm<sup>2</sup> to 10 mm<sup>2</sup>.

## Installation Notes

### Commoning

Additional commoning option on the transformer side

## Security

Lock-out prevents accidental operation of disconnect link.

Lock-out snaps into one of two notched positions.

## Locking system

Using locking covers or profiles for adjacent terminal blocks allows disconnect links to be operated simultaneously.

A lock-out seal can be used on the disconnect link in operating position I when combined with an end and separator plate (Item No. 2007-8893 or Item No. 2007-8894).

Interlocking link mechanically locks multiple links for multi-pole switching applications.

## Marking

Marking via WMB Multi markers or marking strips.
