

ABB EcoSolutions™ – AF contactors

AF Contactors: Precise Control for Energy-Efficient Solutions

ABB's AF contactors combine reliable performance with smart energy use. Their AF technology reduces coil energy consumption and ensures stable operation under any voltage condition, helping lower overall environmental impact. Compact, durable, and globally compatible, ABB AF contactors support efficient control solutions for industries today and tomorrow.

End-of-life instructions

Closing the loop with instructions to maximize the recyclability embedded in circular design.

Improved Efficiency

Energy efficient product due to lower average energy consumption during use phase compared to equivalent products available in the market.

Designed for recyclability at end of life

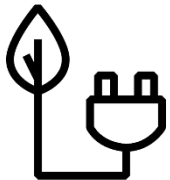

Recyclability rate between 62% and 87,8% according to EN45555.

Produced in a Zero Waste to Landfill site

Validated by UL2799.

Third-party verified Environmental Product Declaration
EPDs compliant with ISO 14025 Type III (externally verified) ensure data accuracy and full transparency on the product's environmental impacts throughout its life cycle.

Low carbon manufacturing
This product is manufactured in ABB facilities powered by renewable energy.
